FROM THE PRINCIPAL'S DESK

Mrs. Pratima Sharma
Principal

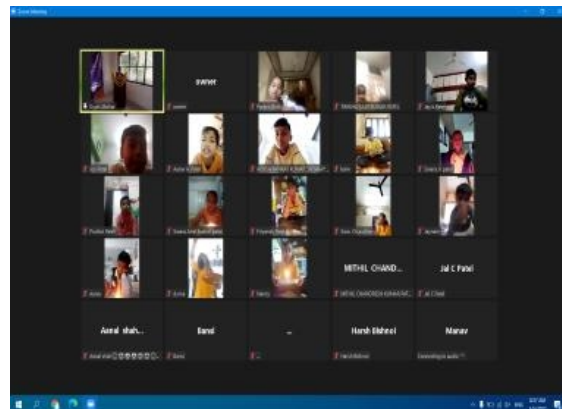

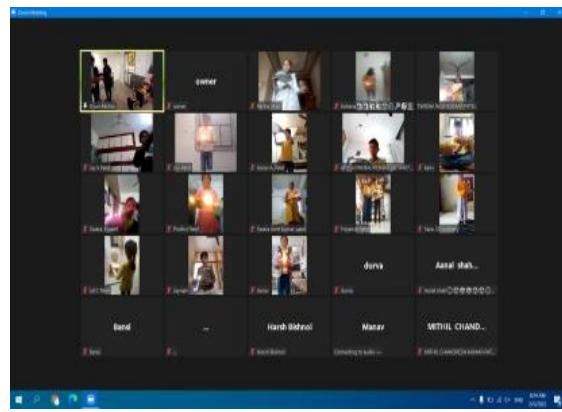

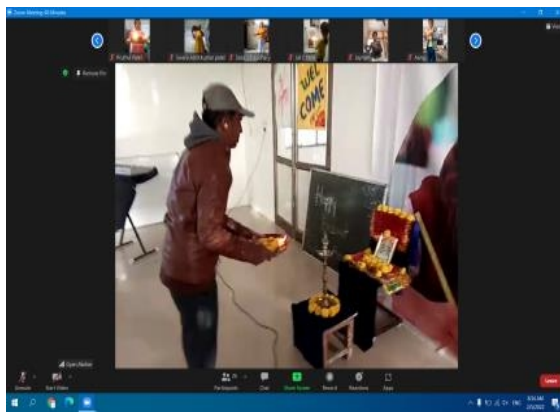

"Education is a shared commitment between dedicated teachers, motivated students and enthusiastic parents with high expectations"

Today, the role of a school is not only to pursue academic excellence but also to motivate and empower its students to be lifelong learners, critical thinkers, and productive members of an everchanging global society. The school is striving hard to make the best possible efforts to inculcate strong values combining with academics and extra-curricular activities in the children. Converting every individual into a self-reliant and independent citizen, the school provides an amalgam of scholastic and co-scholastic activities. While academic excellence is our major thrust, the school is also devoted to prepare the students for life, groom them to face the challenges of tomorrow, and encourage them to be socially relevant. We constantly endeavour to live up to this ideology and inculcate this into everything we do, with the aim that we will be able to ensure that the children grow to their full potential. We at Shanti International School, Unjha conducted variety of activities during the month of February such as Basant Panchami, Urja – Science fair, Run for health, Cleanliness drive, Annual Exams related tips. These activities apart from academics is to make our students well aware about the celebrations and to develop pride about our country's rich culture and tradition.

School Celebrations and Activities

1. Basant Panchami

Basant Panchami is the **festival dedicated to goddess Saraswati who is the goddess of knowledge, language, music, and all arts**. She symbolizes creative energy and power in all its forms. We at Shanti International School organised a special assembly, both in online and offline mode, to offer veneration and prayers to explain the importance and significance of Basant Panchami to our young learners.

2. Science Exhibition

The main objectives of organising Science exhibition are:

- Promoting interest
- Encouraging creativity among students and inculcating a sense of pride in their talent.
- Popularising Science and technology among masses and creating an awareness regarding its impact on socio-economic and sustainable development of the country.

We at Shanti International School, Unjha believe in giving students hands on learning experience to explore their creativity. Our students have shown us their innate potential and talent by thinking out of box by designing different models and explaining its benefits. Many of our parents appreciated the efforts of our students for their presentation.

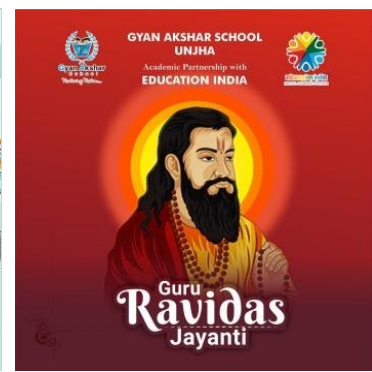

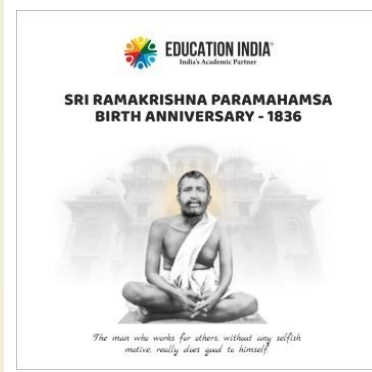

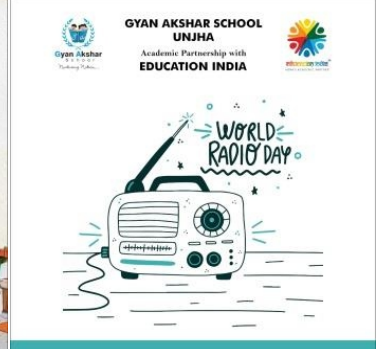

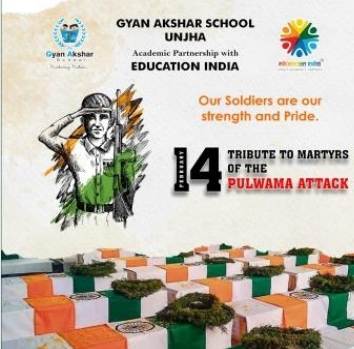

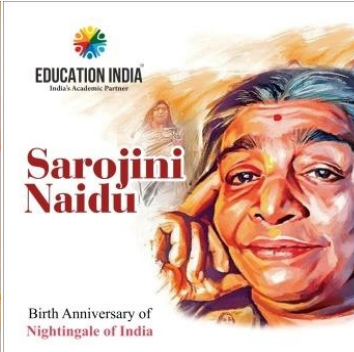

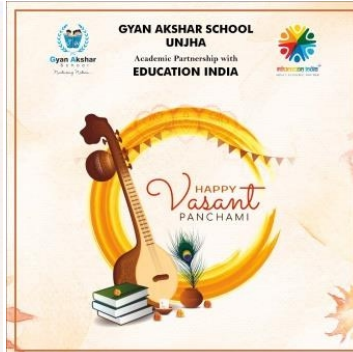

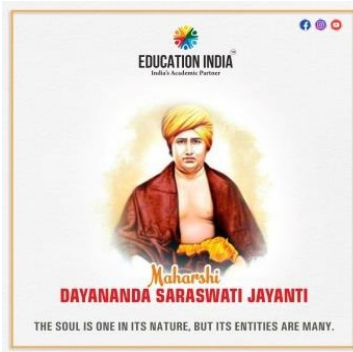

3. Run for Health

Running has been shown to **improve markers of cardiovascular health**. It both physical and mental health benefits.

To make running a habit, we at Shanti International School, Unjha arranged a road run event.

Special Days:-

Annual Exams related Tips

February month ended with the revisions and readiness for the Final examination with teachers sharing exam tips to the students as our students will be writing their final exams in offline mode after the gap of two continuous years.

PARENT'S TALK

We are parents of Nancy & Friyansh, we are glad that our children are studying at Shanti International School, Unjha in Grade 4th & 6th.

We would like to say thanks to all teachers for giving the best education to our children and putting a great effort for betterment of their future.

School is very helpful for children for making education as burden free as possible & enjoyable.

Though students miss physical schooling, campus, activities, live interaction. Principal Madam, teachers and other staff are doing their best for making online teaching as lively and interactive through various projects, co-curricular activities like Science Exhibition, Run for Health and other significant days celebrated at the school campus. Their efforts are promoting inner talents of students.

TEACHER'S TALK

I Paramjeet Kaur Saini working as a Hindi Mentor at Shanti International School Unjha, under the flagship of Education India, I am glad to be a part of this school and I take hindi in grade 7th, 8th and 10th. During the time of pandemic, our school has always been updated with the changes happening and the changes needed in the school for giving teachers and students the best inputs and guide them in right direction. Technology used for online classes are well handled and is made easier for students and teachers too. I am very much thankful to the School Management for giving me best opportunity to serve the school as well as our student's growth and development by providing great valuable and quality of education to all the students.

Paramjeet Kaur Saini
Mentor
